## CERTIFICATIONS / ACHIEVEMENTS

ISI Certification issued in lines with the normes of BIS is the trademark of quality , trust and safety for products in Republic of India.

Conformité Européene is the conformity of the quality products in accordance with health, safety and environmental protection standards for products sold within European Economic Area.

ISO 9001:2015  
ISO 14001:2015  
OHSAS 18001:2007

One of the very leading manufacturer which have been honored by all three prime ISO certifications with accordance to international standards of quality, environmental protection and safe work place.

World's first sanitary ware brand to become United Nations Global Compact participant.

Proudly manufacturing our products in land of Royalty, colors, quality & Trust. We're Made in India.

Crowned as World's Greatest Brand.  
(Process Reviewer : PriceWaterHouseCoopers).

Crowned as India's Greatest Brand.  
(Process Reviewer : PriceWaterHouseCoopers).

Catalyzing the change with Indian Plumbing Association.

Proud Indian Green Building Council Member.

## ICON GUIDE

### RIMLESS DESIGN

Toilet bowls do not have any difficult-to-reach places in which dirt and bacteria can accumulate. This makes it possible to clean the toilet far more quickly, easily and thoroughly

### TORNADO FLUSHING

Jets create a powerful, circulating whirlpool of water that cleans every inch of the bowl – for effective, efficient cleaning inspired by a tornado. This flush combines and enhances the power of the water by channelling it in a single direction, and reaches every point of the toilet bowl to prevent bacteria, germs and dirt from accumulating.

### BLIND INSTALLATION

The revolutionary and one of the most necessary technology of the interior designing world where all the installations of the wall hung aren't visible maintaining the much needed clean design aura of your bathroom.

### SOFT CLOSING

A soft closing seat uses special hinges to prevent the seat from slamming down. Special hinges provide resistance, allowing the seat to lower slowly.

### SIPHONIC

In siphonic flush system, the flush valve releases water into the toilet bowl in two ways; firstly through small holes around the seat rim to clean the bowl and secondly through a hole known as the 'siphon jet-hole' which shoots water into the trapway, initiating the siphon effect.

### WALL HUNG BASIN

The basins which can be installed in multiple ways i.e. either on wall or over the counter which gives you the unlimited liberty to play with your creativity.

### FOR CHILDREN

Beautiful vitreous china masterpieces created by our designers keeping their safety, height and playful nature in mind. The incorporation of this exclusive category promises to create unique experience for your younger loved ones.
